MH8264CR-D MATERIAL HANDLER

Rated Lift Capacity (Mton/m)

Lift Capacities are stated in metric tonnes (t) on the lifting gear's stick tip, and can be lifted 360° on firm, level supporting surface. The user shall make allowances for job conditions such as soft or uneven ground.

Lift Capacities shown do not exceed 75% of minimum tipping loads or 87% of hydraulic capacities (indicated via *).
 Lift Capacities apply only to the machine as originally manufactured and normally equipped by the manufacturer.
 Lift Capacities are in compliance with ISO 10567:2007

The mass of slings and any auxiliary lifting devices shall be deducted from the rated load to determine the net load that may be lifted.

The operator should be fully acquainted with the operator's manual and the operating safety manual furnished by the manufacturer before operating the machine.

The total mass of the machine is 115000 kg. Included in this mass are 750mm double grouser shoes, 16m boom, 11,6m stick, 2,5m 36000 kg counterweight, all operating fluids and a 75 kg operator.
